FOLDING KNIVES

FIXED BLADE KNIVES

RUIKE AMBASSADOR

"I like 'getting lost' in the nature with the minimum material, thus achieving maximum performance of my survival and bushcraft knowledge. "

"As Survival Instructor, specialist in training and survival techniques, I carry out training for people who enjoy nature."

"Ruike is a combination of versatility and efficiency." In the environment in which we move, both fixed blade knives and knives will meet your requirements."

PEDRO HIDALGO

- Founder & CEO of Survival Training Experience, GLOBALTRAINER
- Team Leader of TAD 0-13 / TACFIT

"I have ascended some of the most emblematic and famous mountains of Spain, Portugal, Andorra. I have done trekking through the Atlas Mountains of Morocco (North Africa). I am currently climbing to the highest mountain in each of the 50 Spanish provinces."

"I think Ruike manufactures with a very good quality and creates useful, resistant

BAUTISTA BERMUDEZ

- Spanish mountaineer and adventurer
- Sport Coach

PRODUCT EVALUATION

"Ruike has proven that affordable knives don't have to sacrifice quality or design. They consistently produce high quality knives with innovative features and the look and feel of knives several times more expensive."

Best Damn EDC

@bestdamnedc

"Budget friendly and good quality knives with variable designs models. More blade steel options needed "

Dima Tactical+

@tacticalplus

"././ the LD41 is a knife that I can recommend for anyone looking for a multi-function knife of the more sturdy variety with a focus on the knife blade and where the pliers are secondary."

John Wikström

@knivesandbikes

"Fantastic Blades! Smooth and clean. Love the safety lock. Makes my P128-SF feel as safe as a fixed blade. The designs are highly comfortable and looks awesome! The value of their knives are insanely Good!"

Jonathan Thelander

@zbackpacker

"Thanks to Ruike for creating this P831-SF model, a very elegant knife in the lines and quality of the materials and the addition of a pleasant packaging ideal for festive gifts."

Ivano Berzi

@ivanodanb23official

BRAND INTRODUCTION

FENIXLIGHT LIMITED

THE EXCLUSIVE BRAND AGENT FOR RUIKE

Complementing its world-renowned flashlight line, Fenixlight is proud to announce that it has become the exclusive brand agent for RUIKE knives. Like Fenix flashlights, RUIKE has paid special attention to provide knives that outdoor workers and enthusiasts will be proud to carry and rely on. The craftsmanship, quality, and overall pride that goes into creating these knives sets RUIKE far above its competition.

In the spirit of Fenix, RUIKE is committed to providing a superior quality product that is in touch with its customer base. Formed with high-grade stainless steel, RUIKE knives come in a variety of designs including folding, fixed blade, and multi-functional knives.

FOR THE PERSON OF ACTION

RUIKE Outdoor Tools Manufacturing CO., LTD (hereinafter referred to as "RUIKE" /reik/) was founded in 1998 by Mr Leung, a bladesmith with a long-term devotion to knife design and production. Ever since establishment, RUIKE has been providing years of service to numerous domestic and overseas knife brands in both design and manufacturing. In 2016, RUIKE was confident enough to launch its own brand, self-named RUIKE.

RUIKE is always committed to the value and mission of innovating high-quality and reliable practical knives and tools, taking into consideration experiences of all users. For the person of action, RUIKE is the smart choice: a fine and capable knife you can confidently wield because of its fine craftsmanship and excellent quality.

Produced by Ruike Outdoor
Tools Manufacturing CO., LTD.

WHY CHOOSE RUIKE?

To ensure knife quality, we are devoted to cooperating with world-class brands, employing and upgrading advanced treatment process which is indispensable to make high-end knives. And RUIKE is always dedicated to structure and function innovation.

CRYOGENIC TREATMENT

The blades of RUIKE knives are all processed with Cryogenic Treatment. It has a profound effect on eliminating residual stresses of steels and it helps improve mechanical properties of steels, such as the hardness (HRC), toughness, wear resistance, and corrosion resistance.

THRUST ROLLING BEARING WASHER

1. Thrust Ball Bearing Washer

The built-in lubricated balls are made of specialized high-carbon chromium bearing steel and are finely machined. The balls feature excellent hardness, wear resistance and fatigue durability.

2. Thrust Roller Bearing Washer

The built-in lubricated rollers are made of specialized high-carbon chromium bearing steel and are finely machined. The rollers feature excellent hardness, wear resistance and fatigue durability.

SAFETY LOCK SYSTEM

1. "Beta Plus" Safety Lock

- 1) Avoids accidental blade closure
- 2) Prevents lockbar overtraveling
- 3) Patented, proprietary technology

2. "Thumb Up" Safety Lock

- 1) Avoids accidental blade closure
- 2) Installed at the back of the handle, ThumbUp safety lock allows quick turning on/off by thumb-up/thump-down movement.
- 3) Patented, proprietary technology

WEIGHT REDUCTION DESIGN

The handle liner, the most invisible part, is designed and machined to make the structure even more lightweight without compromising the solidity.

LANYARD COMPATIBILITY

ROTATORY BELT BUCKLE

For free wearing and angle adjustment.

MULTI-FUNCTIONAL KNIVES

MULTIFUNCTIONAL

FOLDING

FIXED BLADE

STRONG ENOUGH FOR OUTDOOR AND EMERGENCY USE

RUIKE multi-functional knives includes S (small-size) series, M (med-size) series, L (large-size) series and LD (large-size, one-handed operation, lockable) series by now. RUIKE multi-functional knives are designed and produced not only for daily use, but also for outdoor and emergency use. That is why RUIKE multi-functional knives are deserved by all people who are ready to act.

**S SERIES
FOR EDC AND LIGHT OUTDOOR USE**

**M/L/LD SERIES
FOR OUTDOOR AND EMERGENCY USE**

SPECIFICATION COMPARISON

Item	S Series	M Series	L Series	LD Series

	/	Tweezers	Tweezers	Tweezers
	/	Pocket clip	Pocket clip	Pocket clip
	Key ring	Retractable ring	Retractable ring	Retractable ring

LARGE BLADE

The main blade of the RUIKE multi-functional knives have enhanced thickness and width, providing greater durability and blade capability compared to the competition.

SANDVIK 12C27 BLADE MATERIAL

Multi-functional knives are made from Sandvik 12C27 stainless steel. Outside of superior corrosion resistance, the steel provides the blades with added strength, giving the blades the ability to retain sharpness for longer.

POCKET CLIP DESIGN

Given that most owners of knives typically use them within environments that promote wear and tear, RUIKE has created stainless steel clips to holster the knives to protect them during non-use. Easy to carry, you can be assured that your RUIKE knife is protected.

G10 KNIFE HANDLE

G10 knife handles are a blend of fiberglass and resin, giving the knives the ability to withstand intense forces, preventing scrapes and general abrasion.

TUNGSTEN STEEL BREAKING CONE

Providing added capability, RUIKE multi-functional knives come with a tungsten steel breaking cone, allowing users to break glass and other tough materials that they may encounter.
